

DB Schenker Environmental Policy

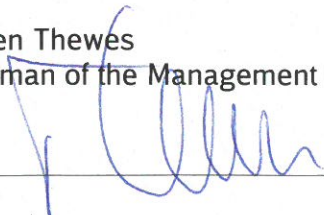

DB Schenker has the aim of becoming the Eco Pioneer within our industry and is committed to operate in a sustainable business approach, by offering effective logistics solutions and transport, with a constant reduction in environmental impact globally for all business. Furthermore, DB Schenker expects other parties and individuals with whom it does business with to demonstrate the same level of commitment to this policy. The company is dedicated to the following objectives:

Objectives

- To be the Top Green Logistics provider in the industry, by providing environmentally friendly, carbon reduced and carbon neutral products and services to our customers.
- To work proactively with our customers, suppliers and any other third parties to achieve the objectives of this policy.
- To uphold environmental standards by developing, documenting and effectively implementing programs in a best practice and continuous improvement approach, in compliance with ISO 14001.
- To consider to achieving energy performance improvement in design and modification of our facilities, equipment, systems and processes, as well as by providing information and necessary resources to achieve continual energy improvement, reviewing periodic energy targets and by supporting the purchase of energy-efficient products and services.
- To comply with the requirements of all applicable legislation, regulations and client requirements.
- To assess all operational activities and potential changes with a view to identifying significant environmental impacts and implementing appropriate measures to limit exposure to such hazards as much as reasonably practicable.
- To educate, train and motivate employees to do their work responsibly and in compliance with all relevant legislation.
- To continuously improve our environmental performance by investing in efficient technologies, promoting an environmental awareness on conserving our natural resources and developing green services and products.
- To foster close collaborations and relationships with various interested parties, including: customers, suppliers, governments, local communities and non-governmental organizations.
- Maximize energy performance, reduce operating expenses and increase shareholder value by actively and responsibly managing energy consumption.

This policy is communicated to all employees of DB Schenker and shall be made available to all interested parties. All Environmental policies within the DB Schenker Group shall be aligned with this corporate Environmental Policy. Our objectives and targets will be reviewed on a regular basis and will be aligned with the Deutsche Bahn (DB) Strategic goals.
