Oslo, 31. October 2023

Information about price changes

The transport- and logistics industry is experiencing significant cost increases. Unsettling times with high inflation, multiple interest rate increases, and low driver availability create a challenging market situation with increased price and cost growth.

As a consequence of this, we will adjust our prices from 01.12.2023.

Schenker is committed to delivering high-quality services. We are continuously working to make our operations more efficient.

The price change will be implemented as follows, unless otherwise agreed:

Land transport Norway and Europe

- System and Direct products will increase by 8.9%.

Prices for **Ocean- and Air Freight** will be adjusted in line with the market development.

Fees and services will be adjusted individually. An overview of updated prices and fee lists can be found at www.dbschenker.no from 01.12.2023

Sincerely
Schenker AS

Wolfgang Frank
Head of Land Transport
