

Value added services for domestic land transports in Finland

You can supplement the transport service with various value added services, for example speed up the transport, specify an exact pick-up time or ensure handling with a specific type of equipment. These value added services must be ordered in advance when placing the transport order and will be charged to the freight payer. Please note that we may also use and charge for value added services on our own initiative if necessary for the safe handling and delivery of the shipment.

Extra assistance service

DB SCHENKER | system, DB SCHENKER | system home

The nature of the consignment sometimes requires extra assistance for loading/unloading or delivering via staircase or indoors. An electronically ordered value added service, where the consignment is delivered over the threshold. The service does not cover deliveries between apartment's floors or the sorting of packages into several rooms. The consignee ensures that the route is accessible and, if necessary, the floor surfaces have been protected. The consignee checks the quantity and condition of the products before acknowledging receipt.

The distribution days are limited and the availability area includes the local areas of our terminals and the remote area1 of our Vantaa terminal.

Maximum dimensions of a shipment:

- weight of a single parcel 60 kg
- tax weight 2,500 kg
- actual weight 1,000 kg
- volume 7.5 m³

It is possible to handle certain household appliances in the factory packaging by two persons using different means of transport, in which case the maximum weight of a single parcel (60 kg) may be exceeded. This requires free access to the destination. The shipment must always be portable by two persons.

Larger batches by a separate agreement.

€57.90 per hour

Tail-lift service for part and full loads

DB SCHENKER | part load and DB SCHENKER | full load

We will load/unload part and full loads (2,500 kg and over) with a tail lift upon request from the consignor or consignee, or due to the loading/unloading conditions. This value added service is based on the tax weight of your consignment. There may be limitations when loading and unloading with a tail lift if the actual weight of a single pallet is 800 kg or more. The service is available for a shipment up to 7 loading meters and the shape and the weight of single packages must be suitable to be handled by a tail-lift.
