

Schenker's **Customs Brokerage** comprehensive services **gets** your import products **to market quickly.**

You've spent time sourcing your product from a foreign supplier and now it's on its way into the USA market. One of the last things you want is a delay due to customs issues. That's where Schenker comes in. We offer one of the most comprehensive suites of import and customs brokerage services in the industry.

Achieving a compliant release of imported goods requires an efficient and timely customs clearance process completed by trained personnel with the right compliance tools and management systems. Our staff of licensed brokers ensures that shipments are processed expertly, efficiently and timely. Specific care is exercised to ensure shipments meet the various compliance requirements of all regulatory agencies.

Our Complete Brokerage Services At-a-Glance.

- **ACE Participant:** Schenker offices are operational participants in the ACE customs system which offers more automation capabilities such as electronic post summary corrections. Schenker is also operational in the ACE Cargo Release program which allows customs release requests to be transmitted to CBP earlier in the supply chain.
- **Centralized Remote Location Filing:** RLF is a customs program that allows an approved customs broker, holding a national permit, to file entries for merchandise from a location other than where the goods arrive. Centrally located teams provide consistency and stronger compliance controls over entry transactions.
- **Full Entry Automation:** Schenker is capable of automated entry processing through the electronic receipt of commercial invoices and parts databases. Upon receipt, we load all entry information such as value, classification, and other government agency requirements directly into our brokerage system. This improves compliance through the reduction of manual data entry.
- **Our Importer Security Filing (ISF) Services:** We help you navigate through the U.S. Customs and Border Protection pre-lading data requirements by offering a total solution that provides on-line access for you and/or your designated supply chain vendors or trading partners. All of the required data to be filed for your ocean imports can be entered, viewed, and edited.
- **Foreign Trade Zone:** Schenker can assist you in navigating the complex regulations in order to take advantage of the many benefits of using an FTZ. We offer a full portfolio of FTZ related compliance services including zone set up, activation, administration as well as all entry related activities including admissions (e214), weekly estimates and weekly entry.
- **Trade Advisory Services:** Schenker can support your organizational compliance program through our Trade Advisory Services team. We can assist you in meeting requirements related to developing and evaluation of your compliance program and procedures, reconciliation entries, audit preparation, trade agreement applications, duty drawback, classification services, binding ruling and post entry services and much more.
- **C-TPAT:** Schenker was among the first freight forwarders, NVOCCs, and customs brokers to be granted membership in 2003. As part of our commitment, Schenker is driving compliance to C-TPAT guidelines to develop, enhance, and maintain effective security processes as defined by U.S. Customs & Border Protection

Schenker's **Customs Brokerage.** Reliably delivering **convenience, flexibility** and **value.**

- **Compliance:** Schenker's compliance is managed through a dedicated team of corporate compliance professionals supported by compliance professionals located throughout our branch offices. Schenker's internal compliance controls include on-line procedures, self-audits, KPI measurements, and on-going training.
- **MyBrokerage and Imaged Documents on the Web:** MyBrokerage provides online visibility to your customs entry activity. Enhance your compliance by having instant access to all your customs entry and import product details including the ability to view, print, save and email any of the documents in the clearance process.
- **Schenker is a member of the following Associations:**
 - International Compliance Professionals Association (*ICPA*)
 - National Customs Brokers & Forwarders Association of America (*NCBFAA*)
 - Trade Support Network (*TSN*)
 - National Association of Foreign-Trade Zones (*NAFTZ*)
 - Foreign Trade Association (*FTA*)
