

eSchenker
It's so
easy!

Booking –
Direct data transfer for
optimized processes.

Online Booking – **created for simplicity.**

Available for all means of transportations, land, air and ocean, online booking with eSchenker is fast and efficient: All relevant booking data and shipment-related documents can easily be maintained in the booking creation process.

Booking

Adapts to work the way you do.

The new flexible eSchenker booking set-up offers you the possibility to adapt your own booking management exactly to your business workflow. Save bookings for later finalization, use standard booking templates, maintain your latest bookings, and contact your responsible DB Schenker branch or manage your individual address book.

The benefits of Booking:

- One online booking tool for all your shipments
- Flexible booking set-up to suit your business workflow. Select details such as pre-alerts, service options and documentation requirements.

- Direct upload of relevant data and shipment-related documents to the eSchenker portal to reduce administrative efforts
- Booking statistics, e-mail notifications and confirmations, copy booking function and printing of barcode labels
- Anytime available platform providing global transparency through direct tracking option to follow-up the booking status
- No need to install additional programs

1. Booking Registration

The Booking eService is offered in a secured environment. Therefore it is only accessible after registration on the eServices portal.

2. Access Booking

Start to work with our eSchenker Booking option either via the left navigation, the eServices dashboards or make use of the main navigation, the new eSchenker launchpad.

Once you have your login, our **Booking Tutorial** will guide you through the individual booking steps.

Fast and efficient Booking process

Follow our intuitive booking steps: From general information to shipment details, optional data input for dangerous goods and summarized details up to the final booking request confirmation. eSchenker

will guide you through the entire process by illustrating your progress in the new designed booking progress bar. Our service: Save your entries at any time for later finalization.

1. General Information

- Start your online booking request process for Land Transport, Air or Ocean Freight by entering shipper and consignee information. The new installed address management assists you and enables you to upload your address data.
- Add needed additional details for product, incoterms, handling instructions and the pickup date, of course.

1

2

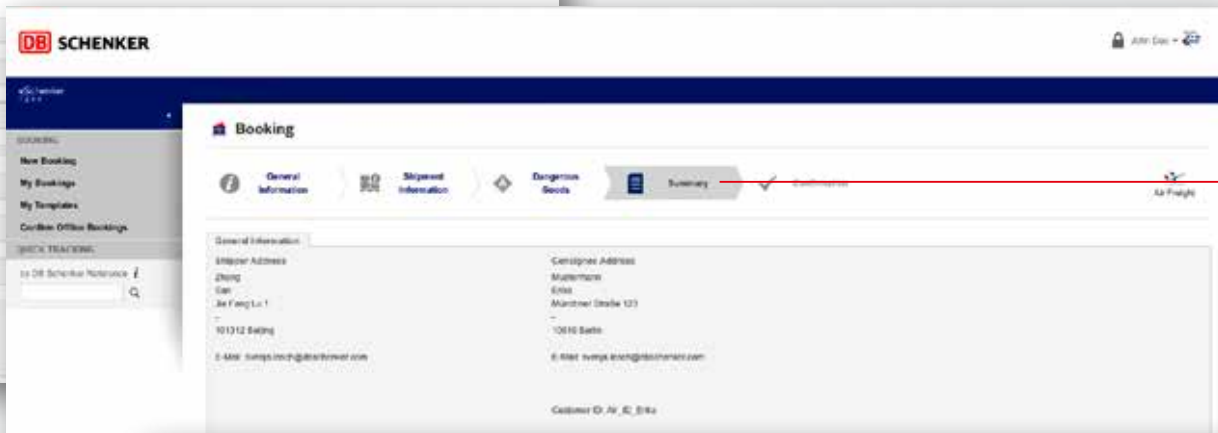

2. Shipment Information

- Specify the information needed to realize your shipment booking request, e.g. details for dimensions and volume or weight – for your convenience automatically calculated.
- Add a cargo description and define the value of your goods.
- Additional options are available depending on the chosen product

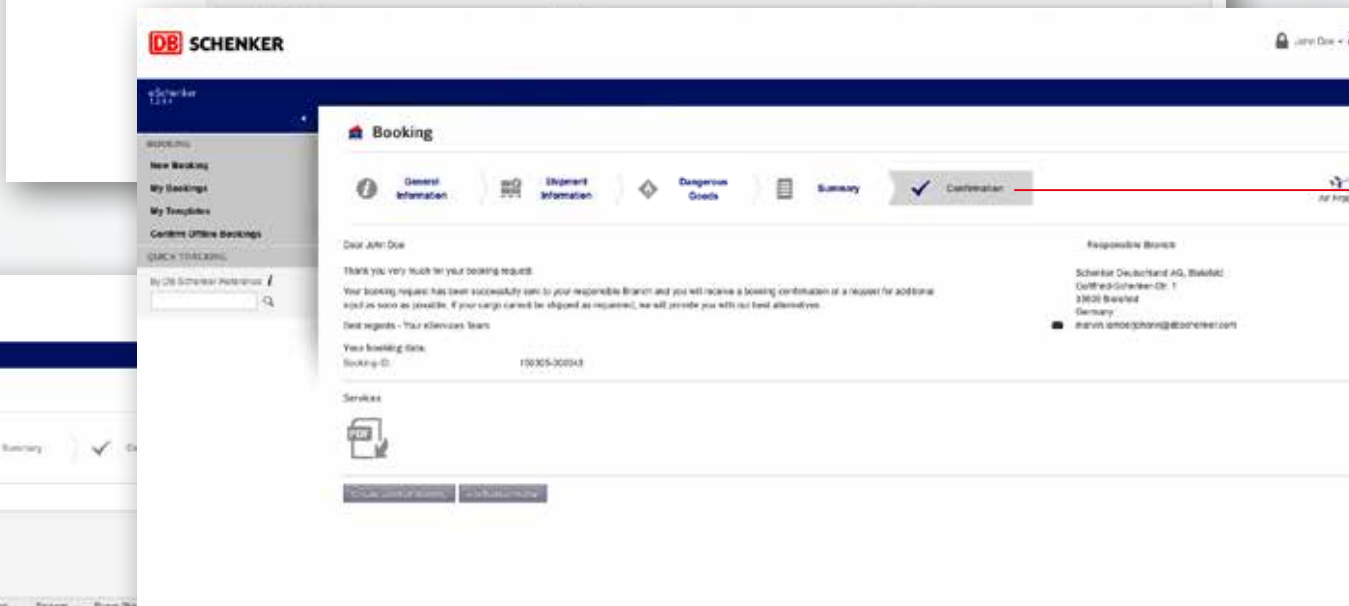

3

4. Summary

- Before you finally confirm your online booking request you will receive a detailed summary for checking the shipment details.
- On top, you can instantly upload needed documents for your shipment.

4

5

5. Confirmation

- Closing the shipment booking request, you will always receive a confirmation of your booking request: Online, via email and for direct download or print.
- For Land Transport, print your shipment labels immediately
- Find the contact data of your responsible DB Schenker Logistics branch for direct communication purposes.

My Bookings

eSchenker Booking provides you with increased transparency for your shipment bookings. Whether you need to review past bookings or to search for a saved booking for finalization, you will find your booking overview online.
