

An **expedited solution** across North America.  
**Opening borders** for business with  
**full truckloads, LTL** and **intermodal** solutions.

## Crossing borders in the Americas is now faster and easier than ever before.

DB Schenker offers an innovative, expedited end-to-end supply chain solution connecting the world to Mexico.

**DB Schenker makes crossing the borders of Mexico, USA, and Canada easier than ever. We maximize efficiency, speed transit times, and ensure your freight is handled right.**

**You only have to make one call.** With DB Schenker, you benefit from customized supply chain solutions provided by a single source. With our knowledge of shipping in North America and our extensive geographic coverage, your full truckload, LTL and intermodal freight moves across the continent – and across borders – without delay.

**Fast. Reliable. Easy. Lower overall pricing.** DB Schenker now offers cross-dock trainload operations in Laredo, TX, providing additional cross-border efficiencies throughout the Americas – including a Free Trade Zone for your tax benefit. Service options depart from anywhere in the world and consolidate in Los Angeles, Chicago and Laredo to provide one carrier thru-service across the border. DB Schenker offers customs clearance, saving as much as three to five days of transit time versus traditional LTL border crossing service.

**Transborder expertise simplifies the process.** Our experts deal with brokers on both sides of the border, manage vehicle changeovers, and ensure regulatory compliance. Complete integration of transportation and border crossing in North America reduces transit time and provides you with greater control over your shipments.
