

Door-to-Door Land Transport Solutions.

Land Transport solutions developed by DB Schenker go far beyond the simple delivery of goods, and provide you with customized, comprehensive land transportation solutions using a variety of services. With our local, national and global freight forwarding and delivery, your freight arrives “where and when you need it” reducing costs while delivering individual shipments efficiently along the supply chain and to their final destination.

We can also provide you with an array of ground transportation services including overnight and deferred, LTL and FTL shipping, documentation and pre-clearance as well as handling specialized cargo.

Our land transport services at a glance.

Land transport solutions designed specifically for each customer.

Let DB Schenker maximize your land transport efficiencies from end-to-end and door-to-door. We deliver land transport solutions where you need them with reliability, convenience, flexibility and value.

Specialized Services

At DB Schenker we understand that every shipment is different. We also understand that your business needs specialized ground freight solutions that accommodate those differences.

Transborder LTL

We offer consistent daily pick-up and delivery times between continental U.S.A and Canada. Choose the departure and delivery times that fit your needs and schedule, including expedited.

Unit Load

Our professional staff will help you design the most cost-effective solutions that maximize efficiencies up and down the supply chain. These include FTL or LTL, van, flatbed or specialized transportation.

Canada Made Easy

With our Canada Made Easy (CME) program, we'll show U.S. shippers how to more effectively import goods to Canada ensuring transparent door-to-door delivery while reducing warehousing costs.

Central Dispatch Services

From the moment your shipment arrives at the port or rail yard until the moment your customer takes delivery, we're with it 24/7.

Canada Made Easy (CME) - Pool Distribution

How do we solve our customers' challenges?

DB Schenker Parcel, LTL or FTL Movement Activities

- Groups individual shipments heading to Canada into one shipment out of our strategic U.S. Gateways
- Consolidates on our regular linehauls heading to Canada
- Prepares transport documentation
- Customs-cleared as one entry - no need for multiple customs clearance transactions
- Prepares each shipment for final delivery once arrived at our cross-docks in Canada
- Delivery according to forecast within defined time slots
- CME = Seamless solution for your cargo from pickup, through customs clearance to our distribution centers, and on to final delivery.

Complement your land transport solutions with other, value-added services.

Air Freight: Our air freight solutions keep things moving and our experienced team of professionals located around the world can help configure the most appropriate and cost-effective solution for you.

Ocean: Since DB Schenker operates its own NVOCC, we can provide customized ocean carriage to meet all our customers' needs from all major Canadian and U.S. points and ports to over 2,000 global destinations. Solutions provided include FCL, LCL and Projects for out-of-gauge or heavy cargo.

Warehousing and Distribution: Our shared or dedicated warehousing solutions are tailored to meet your short and long-term business needs improving overall efficiencies.

Customs Brokerage and Consulting: Our dedicated team ensures your freight is handled with the utmost security while complying with all customs and regulatory provisions.

Worldwide Resources: We have the resources and experience to plan and execute the right transportation solution for you every time, anywhere.

Value-Added Services: DB Schenker will get your freight consumer-ready with services such as packaging, sorting, kitting or labeling. When your customer requires special delivery arrangements or times, or inside delivery/set up options, we can help.

Ready for ship? Call your local DB Schenker sales office for more information. One of our representatives will be glad to route your next shipment the fastest, most convenient way whether you're shipping around the corner or around the world.
