Please note

Value added services and procedures are agreed in advance. The value added services indicated herein are available in Finland. Value added services for international consignments may vary by origin/destination. For more information, please get in touch with your contact person or call 010 520 01.

International dangerous goods services

Dangerous goods services in international logistics are based mainly on IMDG classification for sea transportation. The dangerous goods services indicated in the table herein are charged according to actual gross mass, UN identification number, and packing group.

The consignments are also subject to a handling surcharge of €106.00 per consignment per UN identification number. The following UN identification numbers are subject to a surcharge of €48.00 per UN identification number. Limited Quantities (LQ) and Excepted Quantities (EQ) are charged by classification.

The dangerous goods services do not include storage in ports or terminals. The dangerous goods services require special agreement in case goods are to be transported by road via Tornio-Haaparanta. This method of transport is related to stowage category of goods and type of vessel needed in sea transport. Dangerous goods transportation is subject to classification-specific limitations which may vary per country. Transportation of dangerous goods can not be combined with DB SCHENKER *system premium*.
