Special Provisions for Ocean Transport
The listed additional fees, port dues and public charges (e.g. road charges) are based on the rate at the time the order is placed. They shall remain subject to confirmation until the day of shipment and are invoiced as “VATOS” (valid at time of shipment). If additional fees, dues and/or public charges are imposed by the shipping company or other third parties up until the shipment (= B/L date) or during the transport, they shall be invoiced additionally by Schenker Deutschland AG. Schenker Deutschland AG shall inform the customer of any changed or additional fees/dues as promptly as possible. Such changes shall not entitle the customer to withdraw from this contract or the respective individual contract.
If empty containers are provided for loading in accordance with the order (“shipper’s load, stowage and count”), they must be inspected for external intactness and fitness for loading, in particular for odor contamination, immediately after delivery. Schenker Deutschland AG must be informed immediately in writing/electronically about any possible objections. If no such notification is provided, Schenker Deutschland AG shall not be liable for any possible damage to goods upon loading resulting from existing defects to the container.
Unless otherwise agreed, prior to compilation of the stowing plan, the customer shall submit notification in the necessary form of the VGM (Verified Gross Mass) of the loaded container or the individual consignment to be transported in accordance with the provisions of the SOLAS Convention and IMO regulations (including but not limited to MSC.1/Circular 1475) and in accordance with the weighing methods stated therein or shall alternatively ensure that this obligation is fulfilled by a third party on the customer’s behalf. Unless otherwise agreed, the customer shall also inform the contractor of the dimensions of the delivered consignments. The customer confirms that it has measured the dimensions correctly and guarantees the accuracy of the stated dimensions vis-à-vis the contractor. The contractor is not obliged to verify the stated dimensions, but is nevertheless entitled to check the stated dimensions at its discretion. The customer irrevocably indemnifies the contractor for all third-party claims resulting from the submission of incorrect information in that respect.

DB Schenker explicitly advises the customer that it is entitled to refuse carriage of the container or individual consignment if the required information is not submitted in good time or is incorrect. All costs resulting from such exclusion from carriage shall be borne by the customer. Should the dimensions stated by the customer prove to be incorrect, the freight shall then be measured correctly and the customer shall be obliged to pay the correctly calculated freight charges plus any other additional costs incurred as a result, inclusive of the costs of the subsequent measuring process.

2) If any additional surcharges, costs and/or public dues are levied by the shipping company or any other third party up to the time of shipment (= date of B/L) or during the transport, Schenker Deutschland AG shall charge these costs to the customer in accordance with its own expenditure/outlay, unless otherwise agreed hereinafter.
