Domestic

With DB SCHENKER | parcel Domestic sending a parcel to companies in Sweden is simple, rapid and secure. All you need to do is produce a transport document, an ST label, using EDI support in one of the DB Schenker-certified TA systems. We handle the rest.

Below is the basic information applicable to domestic parcel consignments.

Weight: The maximum weight is 30 kg per parcel with a maximum of 99 kg per consignment.

Volume: The maximum volume per consignment is 0.36 m³ (1 m³ = 280 kg).

Maximum measurements: Maximum length/parcel 2.0 m. Length + circumference may not exceed 3.0 m

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/shipments exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 15).

DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Multi-parcel consignments: Shipments with more than one parcel will be charged according to the minimum freight weight of 20 kg. For shipments with more than 5 parcels, a parcel supplement of SEK 15/parcel will be charged from and including the 6th parcel.

Freight calculation: Zone pricing applies (see price list). Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the shipment expressed in cubic metres with 280 kg.

Invoicing: The minimum charge per invoice is SEK 150.

Timetable: The timetable includes the locations and postcode areas we serve as well as current transport times in Sweden.

Collection: DB SCHENKER | parcel is collected following booking at your nearest DB Schenker office. If you book after 12 noon, the parcel is collected on the next day stated in the timetable. If there are fewer than five (5) consignments to be collected on the same occasion, there is a collection charge (unless collected at the same time as **DB SCHENKER | system Domestic**). Items with a weight below 20 kg and with maximum dimensions corresponding those for **DB SCHENKER | parcel Shop** can also be submitted to any of **DB SCHENKER | parcel shops** for a fee of SEK 15 per item.

Distribution: Delivery of parcels takes place according to the timetable to the stipulated delivery address, inside the company's door/gate or to a stated floor, reception desk or functioning incoming goods reception point. The consignee must be available during normal working hours, 07.00–17.00. If this is not the case the following alternatives are available:

1. Parcels can be collected from DB Schenker's terminal at an agreed time
2. Parcels can be delivered on payment of an extra charge following agreement with the consignee.

Location surcharge: Information about the postcodes and locations concerned together with location surcharges is available on our website www.dbschenker.com/se

City surcharge: There will be a city surcharge for consignments to Gothenburg and Stockholm.

Uncollected parcels: Uncollected parcels are returned to the consignor after contact with them, at the freight-payer's expense, 15 working days after arrival at the receiving terminal. A storage charge may be payable. There will be a storage charge from day four (4), see page 15.

Supplementary conditions: All goods must be packed in such a way that they can withstand normal mechanical sorting and transport. Fragile goods, liquids and paint should be packed in packaging approved by Förpackningskonsult* and marked with a special "Fragile goods" label. Vessels containing liquids should also be embedded in an appropriate absorbent material.

The following goods may not be transported as DB SCHENKER | parcel:

For **DB SCHENKER | parcel** domestically, only dangerous goods in limited quantities, according to Chapter 3.4 of ADR and lithium batteries according to special provision 188, may be transported. The goods must be acknowledged by the consignee. (Explosives, class 1 (except for UN 0014 tool cartridges), and corrosive liquids, under no circumstances may be sent as **DB SCHENKER | parcel**.) Sea transport of limited quantity of dangerous goods as **DB SCHENKER | parcel** is only accepted on the Swedish Transport Administration's ferries. This means that dangerous goods in limited quantity are not allowed to be sent as **DB SCHENKER | parcel** to and from Gotland, or to and from destinations that are not transported by the Swedish Transport Administration's ferries. This option is not allowed for individuals.

Dry ice (UN1845) and substances presenting a risk of asphyxiation when used for cooling or conditioning purposes (such as dry ice (UN1845) or nitrogen, refrigerated liquid (UN1977) or argon, refrigerated liquid (UN1951)) are not allowed to be sent as **DB SCHENKER | parcel** domestic.

Price in SEK/consignment within the whole of Sweden, Zone 1

Prices and complete information for Options and Supplementary services and charges are available on page 15 and in the Terms and Conditions of Transport, in the Options and Supplementary services and charges chapter.

A fuel surcharge is payable and adjusted continuously. For the current level see www.dbschenker.com/se

NSAB 2015 and Terms & Conditions of Transport: All transport is performed according to the DB Schenker Terms and Conditions of Transport and the General Conditions for Transport, Forwarding and Warehousing of the Nordic Association of Freight Forwarders (NSAB 2015).

Brochures etc. on DB Schenker's website: The brochures and other material referred to in the text are also available as pdf files on our website www.dbschenker.com/se

OPTION	DESCRIPTION
Express	Delivery to your customer until 10.00 on the first working day after collection. Express delivery only takes place if all parcels in the consignment are marked Top10/Express. Locations that can be reached by Express are marked in the timetable on eSchenker .
Goods insurance	In the case of high-value goods, extra goods insurance ought to be taken out through DB Schenker. This is ordered when booking transport.
Dangerous Goods	For DB SCHENKER parcel domestically, only dangerous goods in limited quantities, according to Chapter 3.4 of ADR and lithium batteries according to special provision 188, may be transported. The goods must be acknowledged by the consignee. (Explosives, class 1 (except for UN 0014 tool cartridges), and corrosive liquids, under no circumstances may be sent as DB SCHENKER parcel .) Sea transport of limited quantity of dangerous goods as DB SCHENKER parcel is only accepted on the Swedish Transport Administration's ferries. This means that dangerous goods in limited quantity are not allowed to be sent as DB SCHENKER parcel to and from Gotland, or to and from destinations that are not transported by the Swedish Transport Administration's ferries. This option is not allowed for individuals. Dry ice (UN1845) and substances presenting a risk of asphyxiation when used for cooling or conditioning purposes (such as dry ice (UN1845) or nitrogen, refrigerated liquid (UN1977) or argon, refrigerated liquid (UN1951)) are not allowed to be sent as DB SCHENKER parcel domestic.
Consignee freight/ Other freight-payer	This service is available when there is an EDI connection to DB Schenker. For price details see under Options on page 15. Not possible for international parcels.
POD	If a copy of a receipt for the transport document/ST label or proof of delivery is required a charge is payable for each consignment. Receipts can be produced free of charge via eSchenker.

SUPPLEMENTARY SERVICES AND CHARGES	DESCRIPTION
EDI	Customers not connected via EDI are subject to a charge for each consignment.
Extra distribution	When delivery was not possible because the consignee was not available.
Invoice charge	For customers with freight credit.
Incomplete or incorrect transport instructions	Documents not approved by DB Schenker: when amending incorrect transport documents in the event of incomplete delivery information and EDI information that was incorrect or not sent.
Collection charge	If there are fewer than five (5) consignments to be collected on the same occasion, there is a collection charge (unless collected at the same time as DB SCHENKER system Domestic).
Location surcharge	A location surcharge is payable for certain locations.
City surcharge	There will be a city surcharge for consignments to Gothenburg and Stockholm.
Uncollected parcels	If a consignment remains uncollected for more than three (3) days following pre advice, there will be a daily storage charge from day four (4).
Amended disposal	Applies when the consignor amends the transport instructions after the freight process has started.
Non machine sortable	In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine.
Exceeded product conditions	A charge is made for additional handling of consignments/parcels that exceed the maximum weight, length and/or circumference.
Submission at parcel shop	A fee is charged for packages where transport starts with being submitted to a parcel shop.

Finland, Norway and Åland

It is now even easier to send parcels to Europe in our integrated network to Finland, Norway and Åland.

The specific conditions that apply to **DB SCHENKER | parcel** to Finland, Norway and Åland are shown below.

Number of parcels per consignment: Only one parcel per consignment.

Maximum weight: 30 kg/parcel and shipment or 70 kg volumetric weight.

Volume: Maximum volume/shipment is 0.25 m³ (1 m³ = 280 kg).

Maximum measurements: Maximum length/parcel 2.0 m. Length + circumference may not exceed 3.0 m

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/shipments exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 15).

DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Multi-parcel consignments: Shipments with more than one parcel will be charged with an additional fee per parcel, apart from the general product conditions.

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the shipment expressed in cubic metres with 280 kg.

Timetable: Lead times are available via eSchenker/**DB SCHENKER | system** - Standardleverans

Exceptions: Transport to Svalbard and Jan Mayen (NO) as is not available. For transport to vessels and exhibitions in Europe, please contact the DB Schenker Air and Ocean Division.

Export documents: For transports to Norway a commercial invoice and documentation required by the customs authority shall be sent to DB Schenker per e-mail. The customs documentation shall also include a summary of commodity codes, lines and value per commodity code.

For transports to Norway Combiterms 2020 (0025 – DDP) Delivered to buyer's warehouse/factory declared, excluding customs, VAT and other possible import fees, will be applied between the Customer and DB Schenker in accordance with Combiterms 2020 irrespective of the delivery terms agreed between the seller and the buyer.

For transports to Finland and Åland Combiterms 2020 (0018 DAP) - Delivered At Place will be applied in accordance with Combiterms 2020 between the Customer and DB Schenker irrespective of the delivery terms agreed between the seller and the buyer.

In the case of transport to Åland an additional commercial invoice is required and shall be sent to DB Schenker per e-mail. No customs clearance fee will be charged.

By shipping goods with an EU origin and with a value exceeding EUR 6.000 the exporter has to be registered with a Rex-number in order to be able to execute a certificate of origin.

If the value of the consignment is less than EUR 6.000 (approximately SEK 55,000) the export declaration can be made on the commercial invoice. In the case of a higher consignment value, an EUR1 certificate is used. The value of the commercial invoice cannot be zero (0). A statistical number and the value of the goods must be shown.

Consignments to a third country can only be sent as **DB SCHENKER | parcel** according to procedure code 1000, which means regular export.

For consignments to a third country, DB Schenker reserves the right, pursuant to § 11 and § 12 of NSAB 2015, to charge the Swedish consignor for the cost of customs and VAT if these are not paid by the consignee.

If information or documents required by customs are missing, the consignment is retained until the information is complete. A double customs clearance charge is then payable.

NSAB 2015 and Terms & Conditions of Transport:

The rules in the CMR Convention apply to international parcel consignments, which means a maximum of SDR 8.33/kg (approximately SEK 110/kg) for damaged or lost parcels.

Extra goods insurance: If the value of the consignment exceeds the compensation level according to NSAB, it is recommended that extra goods insurance be taken out through DB Schenker in conjunction with the booking.

Pre-Notice delivery via SMS or e-mail: Information about scheduled delivery. The consignee will be notified before delivery takes place. Booking of the notification shall be sent electronically to DB Schenker with contact information containing name, mobile phone number and e-mail address to the person who shall be notified.

Stamping of a country-of-origin certificate: SEK 610

Export clearance, including customs clearance in the consignee country:

Norway
SEK 130/consignment

Application for an EORI number
SEK 395/consignment

Export declaration including three statistical numbers
Statistical numbers beyond three:
SEK 66 / extra number

Provided that the customer has compiled a list where DB Schenker can find the statistical numbers, the type of goods and the value of goods for each statistical number.

COD – Cash On Delivery is not available. If there is delivery information about COD on the parcel note/transport document this is not regarded as an instruction to collect COD amounts in those cases.

Private persons: DB SCHENKER | parcel to Finland and Norway is for deliveries to companies. Consignments addressed or delivered to a private person incur an additional charge for home delivery

Finland
SEK 89 / consignment
Norway
SEK 250 / consignment

Import package: Booking of an import package, with payment of freight in Sweden, is only possible from Finland if a separate agreement has been signed.

Fuel and currency surcharges are payable and adjusted continuously. For the current level see www.dbschenker.com/se

Supplementary conditions: All goods must be packed so that they can withstand normal machine sorting. Fragile goods, liquids and paint must be packed in packaging approved by Förpackningskonsult* and marked with a special "Fragile goods" label. Vessels containing liquids should also be embedded in an appropriate absorbent material.

The following goods may not be transported as DB SCHENKER | parcel: Dangerous goods, (not even limited quantities), weapons and ammunition, valuables, alcohol, tobacco products or tobacco related products, live plants, live or dead animals, heated transport, perishable goods, refrigerated and frozen goods. Dry ice (UN1845) and substances presenting a risk of asphyxiation when used for cooling or conditioning purposes (such as dry ice (UN1845) or nitrogen, refrigerated liquid (UN1977) or argon, refrigerated liquid (UN1951)) are not allowed to be sent as **DB SCHENKER | parcel**.

Exceptions, See DB Schenker's Terms and Conditions of Transport ('1.4 Special rules').

Price in SEK per consignment.

Prices and complete information for Options and Supplementary services and charges are available on page 15 and in the Terms and Conditions of Transport in the Options and Supplementary services and charges chapter.

Europe (Finland, Norway and Åland excluded)

It is just as easy to send parcels to Europe as it is within Sweden. DB Schenker has a well-developed network in Europe, offering smooth, secure transport for you and your customers.

The specific conditions that apply to **DB SCHENKER | parcel Europe** (except Finland, Norway and Åland) are shown below.

Maximum weight: 30 kg/parcel and maximum 99 kg/shipment.

Volume: Maximum volume/shipment is 0.36 m³ (1 m³ = 280 kg).

Maximum measurements: Maximum length/parcel 2.0 m, maximum width/parcel 80 cm and maximum height/parcel 60 cm. Length + circumference may not exceed 3.0 m

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/shipments exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 14). DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Multi-parcel consignments: Shipments with more than one parcel will be charged according to the minimum freight weight of 20 kg. For shipments with more than 5 parcels, a parcel supplement of SEK 30/parcel will be charged from and including the 6th.

Freight calculation: Zone-pricing applies (see price list).

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the shipment expressed in cubic metres with 280 kg.

Timetable: The timetable shows the countries in which we operate in Europe and the rest of the world. See Timetable on page 9 and pages 12-13.

Distribution: We reach your consignees according to a fixed timetable (see zones and transport times in the table on page 9). Transport times apply from Swedish postcode areas 10000-61999 and 63000-79999. From other postcode areas, there is one (1) extra transport day.

Exceptions: Transport to Canary Islands (UK), Ceuta and Melilla (ES) is not available. Consignments to the Canary Islands are sent as World Parcel, Zone 4, lead time two days. See pages 13-14. For transport to vessels and exhibitions in Europe, please contact the DB Schenker Air and Ocean Division.

Export documents: For transport to a third country (Andorra, Gibraltar, Lichtenstein, San Marino, Switzerland, United Kingdom and Turkey), a commercial invoice in at least 2 copies and documentation required by the customs authority must be enclosed.

Please note specific conditions for Great Britain below.

If information or documents required by customs are missing a double customs clearance charge is then payable.

Consignments to Turkey could also be accompanied by an ATR document.

For transports Combiterms 2020 (0018 DAP) - Delivered At Place will be applied in accordance with Combiterms 2020 between the Customer and DB Schenker irrespective of the delivery terms agreed between the seller and the buyer.

Delivery terms Great Britain

Consignee	Goods value	Delivery term
Company (B2B)	≤ GBP 135-	DDP VAT (customs and taxes excluded). The UK VAT number of the consignee can be used.
Private person (B2C)	≤ GBP 135	DDP VAT (customs and taxes excluded). Consignor has to be registered with a UK VAT number.
Company (B2B)	> GBP 135-	DAP. Importer has to be registered with an UK EORI number connected to an UK address.
Private person (B2C)	> GBP 135-	DAP. Neither an UK VAT- nor an UK EORI number is needed.

More information to be found on our website www.dbschenker.com/se

By shipping goods with an EU origin and with a value exceeding EUR 6.000 the exporter has to be registered with a Rex-number in order to be able to execute a certificate of origin.

If the value of the consignment is less than EUR 6.000 (approximately SEK 55,000) the export declaration can be made on the commercial invoice. In the case of a higher consignment value, an EUR1 certificate is used. The value of the commercial invoice cannot be zero (0). A statistical number and the value of the goods must be shown.

Additional export documents are required,
 - in form of **commercial invoices** for consignments to areas in Europe with special tax and customs regulations in relation to the EU, such as Monaco.
 - in form of **packing bills** for consignments to countries served by air, such as Cyprus and Malta.

Consignments to a third country can only be sent as **DB SCHENKER | parcel** according to procedure code 1000, which means regular export.

For consignments to a third country, DB Schenker reserves the right, pursuant to § 11 and § 12 of NSAB 2015, to charge the Swedish consignor for the cost of customs and VAT if these are not paid by the consignee.

If information or documents required by customs are missing, the consignment is retained until the information is complete. A double customs clearance charge is then payable.

NSAB 2015 and Terms & Conditions of Transport:

The rules in the CMR Convention apply to international parcel consignments, which means a maximum of SDR 8.33/kg (approximately SEK 110/kg) for damaged or lost parcels.

Extra goods insurance: If the value of the consignment exceeds the compensation level according to NSAB, it is recommended that extra goods insurance be taken out through DB Schenker in conjunction with the booking.

Stamping of a country-of-origin certificate: SEK 610

Export clearance, including customs clearance in the consignee country:

- Andorra
- Gibraltar
- Lichtenstein
- San Marino
- Switzerland
- United Kingdom SEK 180/consignment
- Turkey SEK 275/consignment
- Application for an EORI number SEK 395/consignment

COD – Cash On Delivery is not available. If there is delivery information about COD on the parcel note/transport document this is not regarded as an instruction to collect COD amounts in those cases where the consignee is outside Sweden.

Private persons: A consignment to a private person is delivered as a home delivery. All consignments to private persons must include the recipients cellphone and/or home phone number and email. Local distribution agreements applies. National or local customs regulations may apply.

Consignee directed deliveries: By shipping to private persons in Europe, the consignee can direct the delivery as desired. The consignee can e.g. change day of delivery, direct to another delivery address, pick up at depot or choose to pick up the parcel at a parcel shop or parcel locker. Additional information about the service is to be found on [Flex Delivery Service](#).

Import package: Booking of an import package, with payment of freight in Sweden, is only possible if a separate agreement has been signed.

Fuel and currency surcharges are payable and adjusted continuously. For the current level, see www.dbschenker.com/se

Supplementary conditions: All goods must be packed so that they can withstand normal machine sorting. Fragile goods, liquids and paint must be packed in packaging approved by Förpackningskonsult* and marked with a special "Fragile goods" label. Vessels containing liquids should also be embedded in an appropriate absorbent material.

The following goods may not be transported as DB SCHENKER | parcel: Dangerous goods, (not even limited quantities), weapons and ammunition, valuables, alcohol, tobacco products or tobacco related products, live plants, live or dead animals, heated transport, perishable goods, refrigerated and frozen goods.

Dry ice (UN1845) and substances presenting a risk of asphyxiation when used for cooling or conditioning purposes (such as dry ice (UN1845) or nitrogen, refrigerated liquid (UN1977) or argon, refrigerated liquid (UN1951)) are not allowed to be sent as **DB SCHENKER | parcel**.

Exceptions, See DB Schenker's Terms and Conditions of Transport ('1.4 Special rules').

** Surcharge SEK 200 per consignment

World

It is now just as easy to send parcels anywhere in the world as it is in Sweden. We offer a global parcel network providing simple, secure transport for you and your customers.

Maximum weight: 30 kg/parcel and maximum 99 kg/shipment.

Volume: Maximum volume/shipment is 0.36 m³ (1 m³ = 280 kg).

Maximum measurements: Maximum length/parcel 2.0 m. Length + circumference may not exceed 3.0 m

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/shipments exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 15). DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Multi-parcel consignments: Shipments with more than one parcel will be charged according to the minimum freight weight of 20 kg. For shipments up to 99 kg, with more than 5 parcels, a parcel supplement of SEK 30/parcel will be charged from and including the 6th parcel.

Freight calculation: Zone pricing applies (see price list)

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the shipment expressed in cubic meters with 280 kg.

Timetable: The timetable shows the countries in which we operate around the world (see table on pages 13-14). For distribution of larger consignments and to countries other than those listed in the timetable, contact the DB Schenker Air & Ocean Division.

Distribution: The transport times stated in the Zone division on pages 12-13, apply from Swedish postcode areas 10000-61999 and 63000-79999. From other postcode areas, there is one (1) extra transport day.

Exceptions: It is not possible to transport to countries subject to an embargo or other international trade barrier. Updated information regarding unlisted countries is available from your local DB Schenker office.

Export documents and Customs clearance service: In the case of transport to a third country, a commercial invoice, issued at least in duplicate, must be enclosed together with the documentation stipulated by the customs authority. Official regulations contain specific documentary requirements, which among other things include the following information:

- Details of the consignor and consignee
- Description of the goods and their value
- Country of origin
- Information about customs and VAT liability at the destination.

For transports Combiterms 2020 (0018 DAP) - Delivered At Place will be applied in accordance with Combiterms 2020 between the Customer and DB Schenker irrespective of the delivery terms agreed between the seller and the buyer.

Terms and Conditions of Transport: The Montreal Convention applies to international parcel consignments outside Europe. In the event of damaged or lost parcels, the maximum compensation payable under the Montreal Convention for goods affected is 19 SDR/kg (approximately SEK 250/kg).

Extra goods insurance: If the value of the consignment exceeds the compensation level according to the Montreal Convention, it is recommended that extra goods insurance be taken out through DB Schenker in conjunction with booking.

Stamping of a Certificate of origin: SEK 610

Service restrictions: The highest permitted value per parcel is USD 50,000 or the equivalent amount in local currency. The highest permitted value or declared value per parcel for watches and jewelry (with the exception of trinkets¹) is USD 500 or the equivalent amount in local currency.

** Öäkta smycken och klockor: smycken och klockor vars detaljhandelspris är lägre än USD 150 per artikel och som inte innehåller ädelmetaller och ädelstenar.*

COD – Cash On Delivery is not available. If there is delivery information about COD on the parcel note or transport document this is not regarded as an instruction to collect COD amounts in those cases.

Private persons: a consignment to a private person is delivered as a home delivery. All consignments to private persons could include the recipients cellphone and/or home phone number and email. Local distribution agreements applies. National or local customs regulation may apply.

Fuel and currency surcharges are payable and adjusted continuously. For the current level, see www.dbschenker.com/se

Supplementary conditions: All goods must be packed so that they can withstand normal machine sorting. Fragile goods, liquids and paint must be packed in packaging approved by Förpackningskonsult*, see opposite page, and marked with a special "Fragile goods" label. Vessels containing liquids must also be embedded in an appropriate absorbent material.

The following goods may not be transported as DB SCHENKER | parcel: Dangerous goods, (not even limited quantities), weapons and ammunition, valuables, alcohol, tobacco products or tobacco related products, live plants, live or dead animals, heated transport, perishable goods, refrigerated and frozen goods. Dry ice (UN1845) and substances presenting a risk of asphyxiation when used for cooling or conditioning purposes (such as dry ice (UN1845) or nitrogen, refrigerated liquid (UN1977) or argon, refrigerated liquid (UN1951)) are not allowed to be sent as **DB SCHENKER | parcel**.

Exceptions, See DB Schenker's Terms and Conditions of Transport ('1.4 Special rules').

Submission at parcel shop Shipments submitted at a parcel shop are charged with SEK 15 per item.	•	•	•	•

Further information regarding Options, Supplementary Services and Charges is available in the Terms and Conditions of Transport, see www.dbschenker.com/se

Deliveries to private persons

DB SCHENKER | parcel offers three delivery alternatives to private individuals and small businesses – via Parcel Shop, parcelbox or home.

Input, registration and booking: A transport agreement with agreement prerequisites must be signed.

DB Schenker must receive an EDI file from the consignor containing all the necessary details.

If EDI is not received by DB Schenker in conjunction with registration at the terminal, further processing is discontinued until correct EDI is received.

Use a TA system approved by us. This ensures that the EDI and transport document requirements are satisfied.

TA system providers: There are functional differences between the TA systems recommended by DB Schenker. For specific information about each TA system, contact the TA provider or your DB Schenker office. See www.dbschenker.com/se.

Parcel Shops are mainly located where people live or work. Parcels are collected by the consignee at one of the approximately 1,600 DB Schenker Parcel Shops. The service offers flexibility regarding when and where the parcel can be collected. It could be from the Parcel Shop near your place of work or perhaps the one near your house in the country – you decide. The service is ideal for e-business/ mail-order customers where simplicity in handing returns and COD is an obvious element.

DB Schenker collaborates with iBoxen and delivers parcels to iBoxens parcel boxes. The parcel boxes are placed outdoors in residential areas. They are available 24/7 – the consignees can pick up their parcels at their convenience. We deliver to parcel boxes every weekday.

There could be local deviations. For sparsely populated locations the distance is greater to the nearest Parcel Shop. A list of Parcel Shops can be found at www.dbschenker.com/se

Pre advice: Pre advice takes place by text message, e-mail, letter or telephone. The choice of pre advice method could differ from one service to another. For further information see the respective service on the following pages.

Collection: Parcels are collected following booking at your nearest DB Schenker office. For bookings made after 12.00 parcels are collected the following delivery day. When less than five consignments are collected on the same occasion a collection charge is payable (unless other **DB SCHENKER | system** domestic are to be collected at the same time)* items with a weight below 20 kg and with maximum dimensions corresponding those for **DB SCHENKER | parcel** Shop can also be submitted on any of **DB SCHENKER | parcel shops** for a fee of SEK 15 per item.

Timetable: The timetable in eSchenker contains the locations/postcode areas we serve as well as current transport times in Sweden.

Distribution takes place through the **DB SCHENKER | parcel** network, comprising some 1,600 Parcel Shops. Parcel Shops are mainly small stores and filling stations. Our network of Parcel Shops can be seen on our website www.dbschenker.com/se.

City surcharge: There will be a city surcharge for consignments to Gothenburg and Stockholm. Does not apply to deliveries via parcel shops or parcel boxes.

Return flow: By using a prepaid return label the consignee can return a parcel to the consignor by handing the parcel in at any parcel Collection Point (applies only to Collection Point deliveries and deliveries to parcel box.) The cost is shown in the agreed price list. The return flow leaves the parcel Collection Points on each day stated in the timetable although with extra lead time for handling returned parcels.

Supplementary conditions: All goods must be packed so that they can withstand normal machine sorting. Fragile goods, liquids and paint should be packed in packaging approved by Förpackningskonsult* and marked with a special "Fragile goods" label. Vessels containing liquids must also be embedded in an appropriate absorbent material. Limited quantities must be packed and labelled according to the requirements set out in ADR-s, Chapter 3.4.

The following goods may not be transported as DB SCHENKER | parcel: Dangerous goods (although permitted in limited quantities with the exception of explosive substances, class I (except UN0014 cartridges for tools), and corrosive substances, class 8, according to ADR-s, which may under no circumstances be transported using **DB SCHENKER | parcel**), weapons and ammunition, valuables, alcohol, tobacco products, live plants, live or dead animals, heated transport, refrigerated and frozen goods. Exceptions, see section 1.4 in the Terms and Conditions of Transport.

Dry ice (UN1845) and substances presenting a risk of asphyxiation when used for cooling or conditioning purposes (such as dry ice (UN1845) or nitrogen, refrigerated liquid (UN1977) or argon, refrigerated liquid (UN1951)) are not allowed to be sent as **DB SCHENKER | parcel**.

Security: Before a parcel is handed over the consignee must confirm his/her identity. A parcel can be handed over to a person other than the consignee stated in the address if the person collecting can produce the consignee's identification or their own identification.

DB SCHENKER | parcel – Parcel Shop

With the Parcel Shop service, we send goods to private persons and small companies in Sweden. The consignee decides when and where delivery will take place. We have around 1 600 Parcel Shops points to choose from.

Weight: The maximum weight is 20 kg per parcel.

Number of parcels per consignment: Only one parcel per consignment.

Maximum measurements: Maximum length/parcel 1.8 m. Length + circumference may not exceed 3.0 m

Volume: Maximum volume is 0.25 m³

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/shipments exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 20).

DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the shipment expressed in cubic metres with 280 kg.

Invoicing: The minimum charge per invoice is SEK 150.

Pre advice: Pre advice takes place by text message, e-mail or letter. Differences can vary between the various TA systems.

Uncollected parcels are returned to the consignor 14 days after arrival at the Collection Point and is charged SEK 39 plus shipping cost. When the consignor is a private individual, the parcel is returned to the sending collection point.

NSAB 2015 and Terms and Conditions of Transport:

All transport movements are carried out according to the DB Schenker Terms and Conditions of Transport and the Nordic Association of Freight Forwarders General Conditions for Transport, Forwarding and Warehousing (NSAB 2015).

Options for Parcel Shop

COD

COD amounts and the bank giro number should be written in the relevant box on the transport document in conjunction with registration/booking. The maximum COD amount is SEK 25,000.

DB SCHENKER | parcel – Parcel Box

DB Schenker collaborates with iBoxen and deliver parcels to iBoxens outdoor delivery boxes. It enables us to offer a convenient service with an efficient last mile distribution.

The delivery boxes are placed outdoors in residential areas or location where many people pass by daily and are a convenient alternative to home deliveries. They are available 24/7 – the consignees can pick up their parcels around the clock. We deliver to parcel boxes every weekday.

Weight: The maximum weight is 20 kg per parcel. *

Number of parcels per consignment: Only one parcel per consignment.

Maximum measurements: Length 0,58 m, Width 0,46 m, Height 0,33 m.

Volume: Maximum volume is 0.08 m³

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

If we are not able to deliver to a parcel delivery box the consignment will be redirected to nearest parcel shop.

Non machine sortable: In the case a parcels length is not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/shipments exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 20).

DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the item expressed in cubic metres with 280 kg.

Invoicing: The minimum charge per invoice is SEK 150.

Notification: The consignees will be notified via text and email - it is mandatory to submit mobile phone number and email address. Reminders to pick up uncollected parcels are sent after 24 and 48 hours by text message

Uncollected parcels are returned to the consignor 4 days after arrival at the Parcel box and is charged SEK 39 plus shipping cost. When the consignor is a private individual, the parcel is returned to the sending collection point.

NSAB 2015 and Terms and Conditions of Transport: All transport movements are carried out according to the DB Schenker Terms and Conditions of Transport and the Nordic Association of Freight Forwarders General Conditions for Transport, Forwarding and Warehousing (NSAB 2015).

Price in SEK per consignment throughout Sweden, including text messages pre advice.

DB SCHENKER | parcel – Home

DB SCHENKER | parcel – Home is as safe, simple way of delivering goods to private persons in Sweden.

The specific terms and conditions that apply to the **Home** product are stated below. Otherwise, the same terms and conditions apply as stated on page 15.

Maximum weight: 30 kg/parcel and maximum 99 kg/consignment.

Volume: Maximum volume/consignment is 0.36 m³ (1m³=280kg)

Maximum measurements: Maximum length/parcel 2.0 m. Length + circumference may not exceed 3.0 m

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcels length exceeds 1,4 m or by other reason is deemed not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

Exceeded product conditions: For parcels/consignment exceeding the above stated maximum measurements and weight limits, an additional fee is charged (see p. 20).

DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Multi-parcel consignments: Shipments with more than one parcel will be charged according to the minimum freight weight of 20 kg. For shipments with more than 5 parcels, a parcel supplement of SEK 15/parcel will be charged from and including the 6th parcel.

Freight calculation: Pricing for Zone 1 applies with the supplemental fees stated below based on the chargeable weight of the consignment.

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the shipment expressed in cubic metres with 280 kg.

Delivery and notification: Home delivery is offered with three different service levels. Daytime without notification and acknowledgement, daytime with notification and acknowledgement and evenings with notification and acknowledgement. For the delivery alternatives with notification, notification is by SMS or e-mail or phone. Accordingly, the recipient's phone or mobile number where the recipient can be reached must always be provided. Evening delivery is offered for selected post codes which can be found in eSchenker.

Timetable: The timetable for the Home alternative is given in eSchenker.

Delivery: Home delivery takes place, following pre advice, during the evening, weekdays 17.00–22.00, in the postcode areas stated in the timetable in eSchenker. Delivery takes place to all other areas daytime 07.00–17.00.

Extra goods insurance: In the case of high-value goods, extra goods insurance ought to be taken out through DB Schenker. This is ordered when booking transport. This does not apply to the service Home – Daytime (without pre advice and a receipt).

Prices and complete information for Options and Supplementary services and charges are available on page 20 and in the Terms and Conditions of Transport, in the Options and Supplementary services and charges chapter.

Input data: A transport agreement with agreement prerequisites must be signed. See page 15.

NSAB 2015 and Terms and Conditions of Transport: All transport is performed according to DB Schenker's Terms and Conditions of Transport and the General Conditions for Transport, Forwarding and Warehousing of the Nordic Association of Freight Forwarders (NSAB 2015).

The Home – Daytime service comprises delivery without pre advice or proof of delivery. This service does not cover limited quantities of dangerous goods. Liability for any goods that may disappear following delivery rests entirely with the consigning customer.

Note: Surcharges in the price list below are also payable in conjunction with agreement regarding collection at a terminal. The charge depends on the selected service.

Price in SEK per consignment throughout whole of Sweden, Zone 1

Maximum weight	Standard parcel	Daytime Surcharges	Daytime with pre advice Surcharges	Evening with pre advice Surcharges

60 kg	645	25	110	170
80 kg	798	25	135	195
99 kg	954	25	135	195

In the case of a parcel weighing in excess of 30 kg or for larger consignments (several parcels) up to 999 kg,

DB SCHENKER | system – Terminal or **DB SCHENKER | system** Home Delivery can be used.

A fuel surcharge is payable and adjusted continuously. For the current level, see www.dbschenker.com/se

DB SCHENKER | parcel – Parcel Shop Return

DB Schenker parcel shop return provides for an effective returns process. Your recipients can return parcels via any of DB Schenker's parcel shops, regardless if the parcel has been delivered to a parcel shop, to a box or as a home delivery. With options to create QR image the return sender is given the opportunity to print their transport label at our parcel shops.

Weight: The maximum weight is 20 kg per parcel.

Number of parcels per consignment: Only one parcel per consignment.

Maximum measurements: Maxlängd/kolli: 1,8 m. Längd + omkrets får högst vara 3,0 m.

Volume: Maximum volume is 0.25 m³

Minimum measurements: Transport labels must fit fully on the top of the parcel, and the height of the parcel must be at least 20 mm.

Non machine sortable: In the case a parcel's length is not suitable to be sorted by parcel sorting machine, an additional fee for non machine sortable is charged.

DB Schenker has no obligation to distribute goods exceeding the above product conditions, and DB Schenker therefore reserves the right to handle such goods in a different way than as stated in these special terms.

Freight haulage weight: Freight is calculated based on the freight haulage weight, i.e. the higher of the actual weight or the volumetric weight.

Volume calculation: The volumetric weight is calculated by multiplying the total volume of the item expressed in cubic metres with 280 kg.

Invoicing: The minimum charge per invoice is SEK 150.

NSAB 2015 and Terms and Conditions of Transport:

All transport movements are carried out according to the DB Schenker Terms and Conditions of Transport and the Nordic Association of Freight Forwarders General Conditions for Transport, Forwarding and Warehousing (NSAB 2015).

Options for Parcel Shop Return

QR Code return on demand API

The recipient (return sender) receives a QR code image instead of a physical transport label. The customer retrieves the QR code image via API and distributes it to the recipient. The return sender can display the QR code at any DB Schenker parcel shop to print the transport label.

QR Code return on demand E-mail

The recipient (return sender) receives a QR code image instead of a physical transport label. DB Schenker shares the QR code image directly with the return sender via email. The return sender can display the QR code at any DB Schenker parcel shop to print the transport label.

When printing the labels, a print fee of 4 SEK / printed label will be debited.

DB SCHENKER | parcel shop return is priced and invoiced according to **DB SCHENKER | parcel ombud-tariffs**.
