Shipments in the Nordic Countries

Transportation order and value added services

Place your transportation order no later than 12 noon on your desired pick-up date. You may supplement your transportation order with value added services. Information on these supplementary services is available in a separate brochure.

Pricing

A shipment consists of a single packages. Pricing is based on the transportation distance and chargeable weight of the shipment. The chargeable weight is based on a volumetric weight (1 m³= 280 kg) or the actual weight of the packages. The higher of these two chargeable weights will be used.

Size and properties of shipments

The maximum weight of a package is 30 kg and maximum length 2 m. The maximum volume of a shipment is 0,25 m³ and the maximum weight 99 kg.

Transportation documents

Address labels with SSCC barcodes for tracking are available at our online services. You can also track your shipment at [DB SCHENKER | connect service](#).

Lead time

We deliver shipments to the consignee on weekdays within 1-3 days, depending on the destination country and delivery area.

Pick-up

We pick up shipments on working days between 8 a.m. and 4 p.m. Any location-specific exceptions are indicated in **DB SCHENKER | parcel** schedules.

Delivery

Shipments are ordered using delivery terms DAP to Sweden and DDP to Norway. Shipments and delivered to the consignee indicated in the order. If the consignee is not available or the delivery cannot be completed on the agreed date, the shipment is returned to the terminal and a surcharge is placed for re-delivery.

All services under one roof

We provide comprehensive solutions from transportation to warehousing and value added services. With our help, you can reach your customers easily in Finland and abroad.

Check list for smooth transportation
