

HEALTHCARE SOLUTIONS

We take care of the products that take care of people.

When it comes to patient safety, DB Schenker delivers. DB Schenker provides specialized healthcare logistics services, answering to all the specific needs required for successful, secure and compliant product movement. Shipping healthcare items poses unique challenges. Theft of high-value products, regulatory compliance, storage challenges, speed and price can all be counted among the pain points faced by manufacturers of healthcare products. DB Schenker meets every problem head on, with industry-leading logistics solutions that get your shipment there at the right time, for the right price, with proof of pedigree.

DB Schenker keeps each healthcare shipment 100% secure and maintains the integrity of every item. We offer quality programs, international expertise, and top security to leaders in multiple industries. Your high-value, cold chain and controlled products are always securely managed from a single source, and stay in expert hands from beginning-to-end. With an unparalleled network of global offices in every major port and industrial zone in the world, DB Schenker gives you more options, and more peace of mind, than any other logistics provider serving the health care industry.

Healthcare solutions at-a-glance:

- **The speed you need:** Let us help you optimize your cost to transit time ratio to suit your requirements.
 - DB SCHENKER*jetcargo*: Provides you reliability and speed for your air freight.
 - DB SCHENKER*ocean*: Gives you maximum flexibility to the most comprehensive ocean sailing schedules in the world.
 - DB SCHENKER*skybridge*: Marries the speed of air with the economy of ocean.
- **Regulatory expertise and compliance:** Our Healthcare professionals understand the ever changing regulatory environment. We work to help keep you informed of changing requirements that can impact your global supply chain.
- **Security:** Worry-free transport keeps your shipment safe with special handling and monitoring for high valued shipments.
- **Safe temperature controlled environment:** Our compliance experts ensure constant monitoring and protection with enroute temperature management to protect the integrity of your cold chain pharmaceutical products.
- **Supply Chain Optimization:** We provide customized end-to-end supply chain solutions for the healthcare industry, from pharma products to medical devices, from manufacturers to POS requirements.

DB Schenker Healthcare.

A solution for every pain point.

Reach any destination, easily and reliably – Our Healthcare Solutions enable you to meet your requirements.

Maximized routing and transit options, with shipping that's as fast as you need it to be. Choose from Air, Ocean or Air/Ocean combinations. With global reach and speed, we will get your urgent materials there when you need them, at a price that fits your budget. Global resources with 24/7 coverage gets your shipment exactly where it needs to go, as fast as you need it to get there, no matter where it's going. DB Schenker has the most comprehensive range of locations in the world.

Industry-leading security. Secure logistics solutions keep your sensitive cargo safe. Count on pre-trip inspection, testing of all reefer functions, protection against counterfeit items and diversions, and secure warehouses all around the world.

Temperature-sensitive services. Our cool chain solutions include dedicated temperature-controlled flights, trucks and storage facilities. DB SCHENKERhealthcare cool offers cooling solutions from 2-8°C using Envirotainer and temperature assuring blankets. DB SCHENKERhealthcare ambient gives you controlled room temperature from 15-25°C.

Predictable supply chain and global visibility. Innovative IT systems and solutions with our online Tracking, Purchase Order Management Module (P/O), as well as our market leading internet based Supply Chain Visibility Tool lets you check up whenever you want end-to-end traceability at your fingertips.

We understand the need for strict adherence to regulatory requirements and industry standards. This includes USP 1079, Good Distribution Practices, IATA Chapter 17, and PDA Technical Report 39. We maintain excellent working relationships with the US Food and Drug Administration, Health Canada and International regulatory bodies.

Solve your supply chain problems

We're always ready to deliver. The most respected names in the healthcare industry count on DB Schenker to safely get their products to the people who need them. Tell us your logistics challenges, and we'll show you how to solve them.
